

## Yahoo! Pop-Up Blocker

If the Yahoo! Pop-Up Blocker is installed, it will appear in the Internet Explorer browser as shown below.

**To configure the Yahoo! Pop-Up Blocker to work with Webinterpoint:**

1. Click the down arrow on the Pop-Up Blocker button and select the "Always Allow Pop-Up From..." option.

2. When the "Always Allow Pop-Ups From..." window appears, select the domain entry for the Webinterpoint service. If you unsure about what the correct domain setting should be examine the list of recently blocked pop-ups to find the correct domain and click the ALLOW button.

3. Click the BACK button on the browser to return to the log-in page and sign in again.
