1. Introduction

ATMobile - app for Android smartphone.

With ATMobile, you can quickly and easily join your conference calls with a single click from your Android smartphone.

- ATMobile saves all of your conference dial in numbers, and associated codes, in one easy to use location.
- Easy name assignment to your dial in info for quick and accurate identification.
- Complete auto dialing for fool-proof entry to your conference calls. No need to remember or look up dial in numbers and associated codes.
- Do you have multiple user profiles? No problem, create multiple dial in profiles for every set of conferencing dial in numbers and codes you regularly use, in either Host or Participant configuration.
- Does your user account use a secondary security PIN? No problem these can be included in your auto-dial setup.

This document provides information on how to download and set up ATMobile for Android.

2.0 Quick Reference Guide

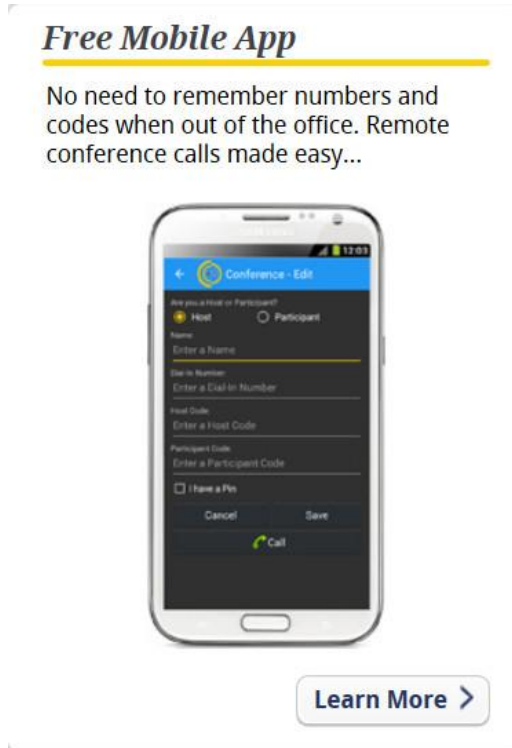

- 2.1 Open App.
- 2.2 Add a conference – Click the plus sign in the upper right.
- 2.3 Enter required information (Name, Dial In Number, Host or Participant Code) and click Save.
- 2.4 Edit a conference – In the conference list click on the conference name to edit. Edit the appropriate line item(s) and click Save.
- 2.5 Initiate a call – From the conference list click the call button.
- 2.6 Delete a conference – Click and hold the conference name on the conference list page. Click "Delete Conference".

More detailed instructions with screen shots follow.

3.0 Access to ATMobile for Android

ATMobile can be accessed either directly at the Google Play store or via atconference.com.

3.1 Web Site (atconference.com) – Services / Reservationless - [Click](#)

3.2 Google Play Store

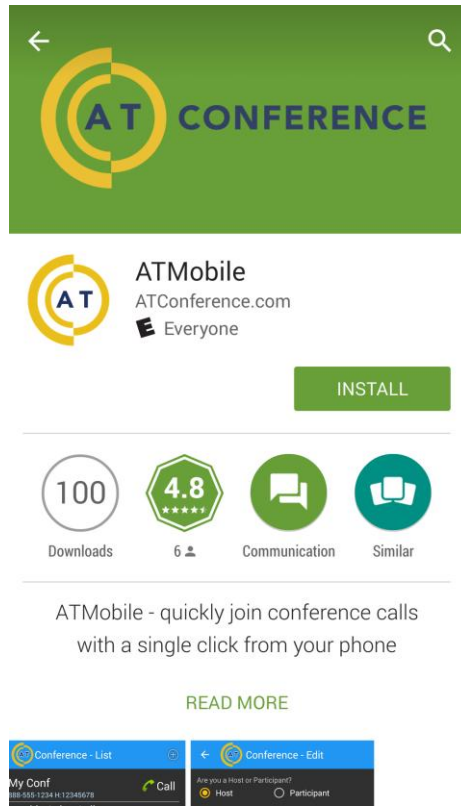

3.2.1 Direct URL -

<https://play.google.com/store/apps/details?id=com.atconference.android.conferencecall>

3.2.2 Search in Google play store – use the search term “ATMobile” for best results.

4. Download the app

- 4.1 Click Install from your Android smartphone. App will install within seconds.

5. Open App

- 5.1 Upon opening a splash screen appears for a few seconds follow by the Conference List Page. This page is initially blank but will later contain a list of all currently configured conferences.

Splash Screen

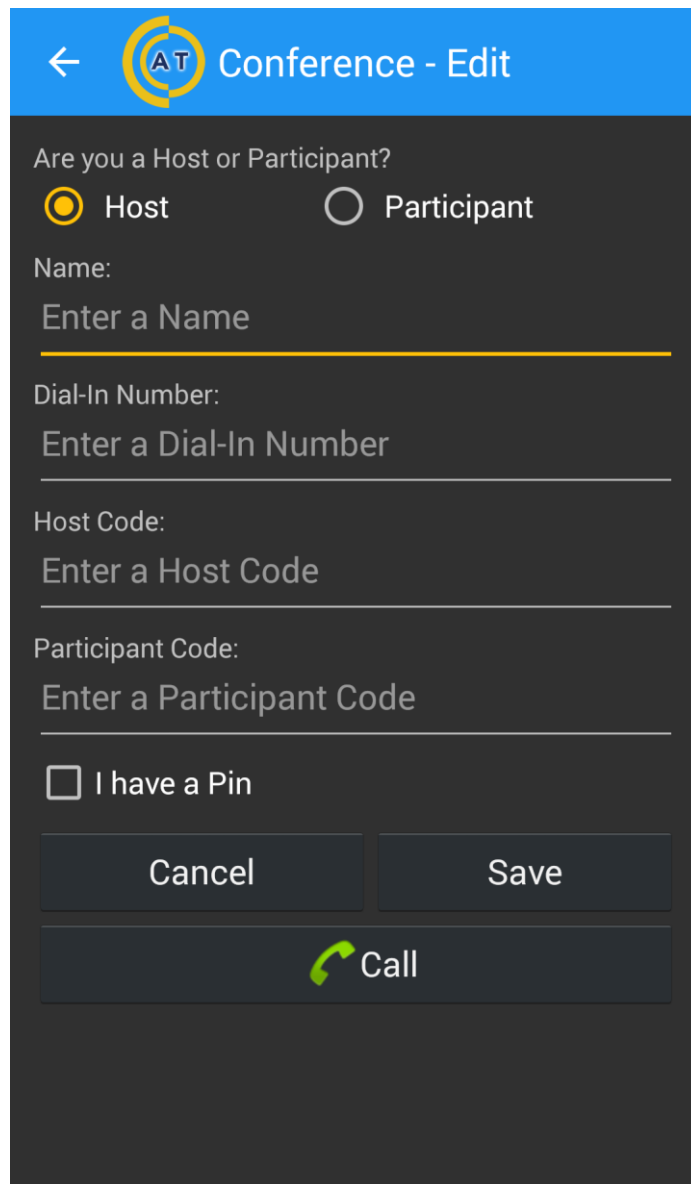

Conference List Page

- 5.2 Each conference entry is defined by a name, dial in number and appropriate entry codes.
- 5.3 It is from the Conference List page that you will be able to click the “Call” button and be placed into conference.

6. Initial Setup / Add a Conference

- 6.1 To add a conference, click the plus sign in the upper right corner

A screenshot of a mobile application interface for editing a conference. The top bar is blue with a back arrow, the AT Conference logo, and the text "Conference - Edit". Below the header, there is a dark grey form with the following fields and options:

- Question: "Are you a Host or Participant?"
- Options: "Host" (selected with a yellow radio button) and "Participant" (unselected with a white radio button).
- Field: "Name:" with the placeholder text "Enter a Name" and a yellow underline.
- Field: "Dial-In Number:" with the placeholder text "Enter a Dial-In Number" and a white underline.
- Field: "Host Code:" with the placeholder text "Enter a Host Code" and a white underline.
- Field: "Participant Code:" with the placeholder text "Enter a Participant Code" and a white underline.
- Checkbox: "I have a Pin" (unchecked).
- Buttons: "Cancel" and "Save" (both in white text on dark grey buttons).
- Button: "Call" (with a green phone icon and white text on a dark grey button).

AT Conference Inc.

6.2 Add the conferencing information

6.2.1 Click the appropriate radio button for if this configuration is for a Host or a Participant.

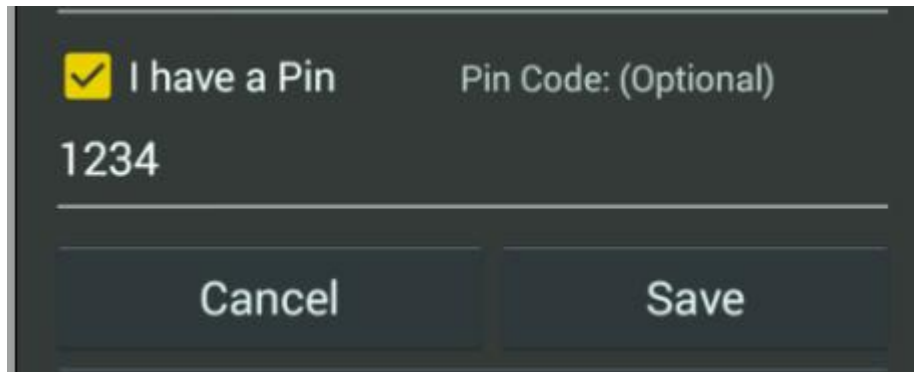

6.2.2 Enter a name for the Conference listing – something that will be relevant to your call (My Conf, Weekly Sales Call, etc.)

6.2.3 Enter in the dial in number (restrictions)

6.2.4 Enter the Host Code as sated on your welcome e-mail or wallet card

6.2.5 Enter the corresponding Participant code from your welcome e-mail or wallet card.

6.2.6 Click Save

A screenshot of a dark-themed dialog box for entering a PIN. At the top left, there is a yellow checkmark icon followed by the text "I have a Pin". To the right of this is the text "Pin Code: (Optional)". Below this, the number "1234" is entered into a text field. At the bottom of the dialog, there are two buttons: "Cancel" on the left and "Save" on the right.

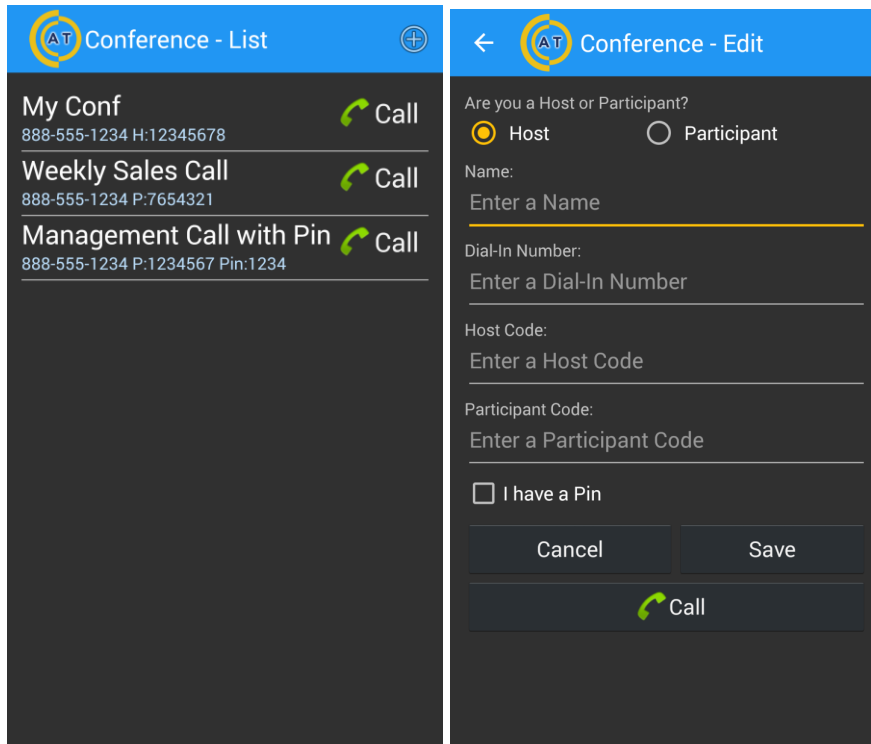

6.3 Add PIN – This is a secondary security PIN that has to have been set up for your user profile in advance.

6.3.1 Check the “I have a PIN” box

6.3.2 Enter in your assigned PIN code.

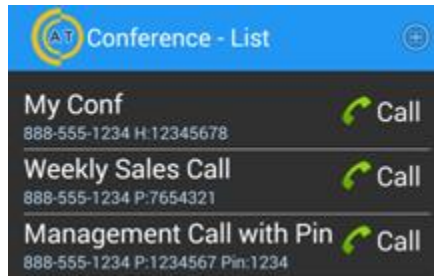

6.3.3 Click “Save”

7. Edit a Conference

- 7.1 In the Edit screen click on the conference name to edit it.
- 7.2 The Conference Edit screen will come up.
- 7.3 Modify the line item to be revised.
- 7.4 If satisfied with your changes – click “Save”. Click “Cancel” to return to the original state.

8. Initiating a Conference

- 8.1 Click on the "Call" button from either the List or Edit screen. This will auto dial your phone into the conference with the proper codes and pauses for successful conference initiation.
- 8.2 Note: If your user configuration requires additional keypad input such as Name Record you will have to manually enter the proper keypad commands.

9. Deleting a Conference

- 9.1 To delete a conference from your listing click and hold the conference name until the "Delete Conference" action box appears and select "Delete Conference".

AT Conference Inc.

- 9.2 After selecting “delete” an undo option will appear at the bottom for a few seconds. Click “Undo” to revert back to the original Conference List.
